Multi-core Indoor Fiber Cable

CAT6 UTP 4 Pairs LSZH SHEATH LAN Cable

CAT6 UTP Patch Panel – 24 Ports

BT Box

Wall Plate-RJ45

Fiber cabling for smart **Hotels** demands high-bandwidth capacity for Wi-Fi 6/7, IPTV, and IoT services, utilizing Passive Optical LAN (POL) to connect rooms via a single, thin fiber strand. Key requirements include Fiber-to-the-Room (FTTR) design for centralized management, high reliability with protection switching, and future-ready, low-interference data transmission
